

## What is funeral preplanning?

Funeral preplanning is simply addressing the inevitable now, so that our surviving loved ones aren't forced to on one of the most difficult days of their lives.

Our goal is to ensure every client's final wishes are fully honored. And remove much of the significant emotional and financial burdens families face when addressing funeral needs at the time of death.

The goal of Funeralwise Preneed Services is to ensure all of your end of life planning is fully addressed.

When you lose someone close to you, it's a difficult day. We cannot change that. But with proper preplanning, we can help you take that difficult day and prevent it from becoming much worse for those you love.

We offer free, no-obligation, funeral preplanning consultations upon request.
